

VIGNESHWARAN V

Full-Stack Developer | Cyber Security Engineer | Linux System Administrator
vigneshwaranvicky9091@gmail.com | +91 87787 87474 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science and Engineering (Cyber Security) student at Sri Sai Ram Institute of Technology with hands-on experience in Front-end Web Development and Cyber Security. Proficient in Java, React.js, JavaScript, HTML, CSS, and modern web technologies. RHCSA-certified and completed two technical internships, gaining practical experience in software development and Linux system administration. Passionate about building scalable applications and eager to contribute as a Software Engineer.

EDUCATION

Sri Sai Ram Institute of Technology Chennai, India | Sep 2023 – May 2027
Bachelor of Engineering – Computer Science Engineering (Cyber Security Specialization)

CERTIFICATIONS

Red Hat Certified System Administrator (RHCSA) - Red Hat / Vectra Technosoft Pvt Ltd	Feb 2026
Cybersecurity Management Job Simulation - Forage	June 2025
Cybersecurity Analyst Job Simulation - Forage	June 2025

PROFESSIONAL EXPERIENCE

Web Development Intern - Logritha Technologies Jun 2025 – Jul 2025

Developed **BridgeLoop**, a full-stack e-learning platform using HTML, CSS, JavaScript, PHP, MySQL, and XAMPP with features including user authentication, course enrollment, and personalized dashboards. Built the application independently, implemented responsive design, optimized database performance, and applied secure coding practices using Git for version control.

Linux System Administrator Intern - Vectra Technosoft Pvt Ltd Jan 2026 - Feb 2026

Completed a **Linux System Administration Internship** focused on Red Hat Enterprise Linux (RHEL), gaining hands-on experience in Linux administration, networking, and server configuration. Assisted in user and permission management, Linux command-line operations, network configuration, and routine system administration while earning the **RHCSA (Red Hat Certified System Administrator)** certification.

PROJECTS

BridgeLoop | React.js, Go, API Jun 2025 – Present

- Developed a full-stack e-learning platform using **React.js, HTML5, CSS3, Styled Components, Go, Django, PostgreSQL (pgAdmin)**, and REST APIs to deliver a scalable learning management system.
- Implemented **role-based authentication** with dynamic login and personalized dashboards for **Admin, Instructor, and Student** users.
- Built core features including **course management, assignment posting, quizzes, automatic assessments, live classes, Google Meet integration**, and secure course access.
- Integrated an **AI-powered student assistant** to provide learning support and enhance user engagement while ensuring efficient backend communication and database management.
- Configured frontend, backend, and PostgreSQL database integration using **Django** and followed responsive design and secure development practices throughout the project.

TECHNICAL SKILLS

- Languages:** Java
- Web Technologies:** HTML5, CSS3, React.js, Go, Django
- Databases & Tools:** SQL, PostgreSQL (pgAdmin), Linux (RHEL), Git, GitHub
- Core Skills:** Object Oriented Programming, DBMS, Operating Systems, REST APIs
- CyberSecurity :** Burpsuite, Web Exploitation, NMAP.
